

# Icon Tracker

UI/ UX APP DESIGN PROPOSAL

WNM617 Fall 2020    Huan Meng

# STATEMENT OF INTENT

Icon tracking is an interesting and useful tracking application that enables designers to keep track of the inspiration of icons they see. This app makes it easier to designers to keep count of impressions of the icons they like, so that they can collect the icons based in the real life. The designer can take photos and upload the photo to the app, and then to add some description to record the idea or thoughts when they meet the icons.

The information on this app can improve the sense of icon design while they do their design process. All the tracking data will only be available to the users themselves. Users can edit, add, and delete those tracking icons when they want to.

## TYPOGRAPHY

SF Pro Text Bold 26pt **Heading**

SF Pro Text Semibold 16-20pt **Subheading**

SF Pro Display Regular 16px

Body Text:  
Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed diam nonummy nibh euismod tincidunt ut laoreet dolore magna aliquam erat volutpat. Ut
